

HOW DOES WALL PACK LIGHT
GO HUMAN CENTRIC AND ECO-FRIENDLY?

Human Centric lighting is kicking off the market. People expect the country, the city and the environment that they live is healthy and eco-friendly. When choosing your wall packs, you should consider the three components of light pollution: light glare, light trespass, and sky glow.

WP01

HARMNESS OF BAD LIGHT

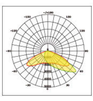

Light glare, light trespass, and sky glow of wall light are doing devastating harm on environment, which is against the concept of human centric and eco-friendly lighting.

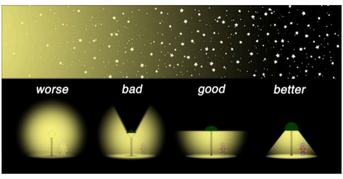

Trepassing light is bad for your neighbers.
One of the main effects is insomnia.

WHY FULL CUTOFF WALL PACK?

The International Dark-Sky Association (IDA) recognizes the need for outdoor lighting, but advocates the use of appropriate lighting, largely to minimize harmful effects on the environment.One of IDA recommendations is that lighting should be fully shield.
