# HA01 Wide Distribution Lowbay with High Uniformity

The product has been discontinued online. Please contact our sales representative for more information.
HA01 is a multiple installations industrial lowbay light, particularly effective in spaces with lower ceiling heights ranging from 3 to 6 meters. Unique to its design is 2-piece hinged housing with large cavity making DIY and maintenance an ease. Besides classic version with flat glass cover, it is also available with an uplight refractor, which maximizes light dispersion by directing light sideways and upwards.
High light efficacy up to 145lm/W
Convex refractor option features wide distribution pattern with uplight
2-piece hinged housing with large cavity making DIY and maintenance easier
Bracket mount, NPT pipe mount installation
Emergency version is available
Applications:
This luminaire is perfect for low bay ceilings, suspended pendant mounts, areas with elevated infrastructure or areas which require dispersed side and uplight illumination.
